

March: Women's History Month

Processing our History and Exploring our Future

March is Women's History Month. We celebrated with various activities throughout the month, beginning with a special celebration for International Women's Day on March 8. The 13 women in the house now come from 10 different countries of origin. Our intercultural community is sometimes challenging but always enriching in calling us to growth.

Women who recently arrived at Bethany House prepared collages to introduce themselves and help us all to learn what they like and their hopes for the future. Stephanie, an intern from Dominican University, facilitated the activity.

Chela Marie facilitated a painting workshop via video--from Puerto Rico! Art and craft activities give the women (and children) an outlet to express themselves and share their creativity. The table conversation during the activity is often as important as the activity itself, fostering community and building trust and friendship.

Mothers know that collaboration is vital. They support one another in getting the children to and from school or watching a little one when mom has an appointment. This mom has her hands full as she watches over three of the babies born in recent months at Bethany House.

Bethany House counts on your generosity to continue to offer a safe, caring home to young women. You can make a difference in the lives of some of the most vulnerable women and children who come to Bethany House. Please **contact Sister Kathlyn Mulcahy**, executive director, or reply to this email with any questions about our ministry or the needs of the community at Bethany House.
